

WHAT'S THE gOSHC?

Animal Week!

Week 7, Term 4

MTOP Outcomes: 1.1, 2.1, 4.3

Animal Masks!

On Monday, we kicked off our Animal-Themed Week at the craft tables by creating our very own animal masks! With a whole safari of printed creatures to choose from, everyone got busy cutting, colouring, adding string, and bringing their favourite animals to life. From pink foxes to rainbow cats, our OSHC artists let their imaginations run absolutely wild!

Guide Dogs Obstacle Course!

On Tuesday, we learned all about guide dogs. Here at OSHC, we love animals, not just the cuddly ones at home, or the helpful ones that give us some of our favourite foods like eggs and honey, but also the incredible support animals that help people every day. To put a fun twist on our learning, we set up a special guide dog obstacle course! With skipping ropes and teamwork, our OSHCies worked together to navigate the course and enjoyed a sunny afternoon outdoors!

Create Your Own Animal!

Thursday's theme was "Create Your Own Animal," and our OSHCies did not disappoint! Not only did they design and craft their own imaginative creatures, but some even became animals themselves, thanks to a team of inventive diggers who sculpted their friends in the sandpit to look like fantastical creatures!
