

WEEK 7, TERM 2

# INVENTORS WORKSHOP

MYTOP FOCUSSES: 2.2, 2.3, 4.1, 4.2, 4.3

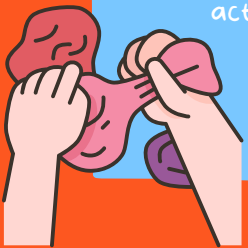

## Paper Plane Making

Take to the skies in our Paper Plane Making challenge! Children will design, fold, and test their very own paper planes before competing in fun flying challenges for distance, accuracy, and airtime.

## Playdough Making

Get ready for a hands-on sensory experience in our Playdough Making activity! Children will mix, measure, and create their own colourful playdough from scratch, exploring textures, scents, and colours as they go. Once made, they'll use their creations for imaginative sculpting, building, and creative play.

## Create your Own Sport

Get ready to think like inventors and play like athletes in our Create Your Own Sport challenge! Children will work in teams to design, build, and test their very own games using simple equipment and creative rules. They'll experiment with scoring systems, teamwork strategies, and fair play

## Lego Tournament!

FAMILY FOCUS

This week's Family Focus Initiative challenges our OSHCies to a Lego Tournament! Who can build the greatest tower? Bonus points for super structural integrity and amazing aesthetics!
