

WHAT'S THE gOSHC?

Challenge Week! MTOP Outcomes: 1.2, 2.2, 2.3

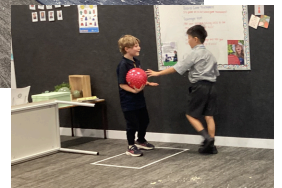

Week 9, Term 2

Soccer Skills!

Soccer Skills was, to no one's surprise, our most popular activity this week! From exciting matches and one-touch games to penalty shootouts, there was plenty of action and something new every day. Even when the rain kept us indoors on Monday, we got creative and adapted our penalty shootouts for inside.

Board Games!

Board Games turned out to be the perfect for a rainy week. With so many indoor days, there was no better way to stay entertained! We enjoyed favourites like Snakes and Ladders and 5 Second Rule, then got even more creative going off the board with games such as Night at the Museum and charades.

Scavenger Hunt!

Scavenger Hunt was certainly our most unique activity this week, but it was also one of the most exciting! Our OSHCies loved searching for clues, solving challenges, and working together to complete the hunt. It was a fun way to get everyone involved and thinking creatively.

Quizmasters!

The final activity this week was Quizmasters. Our OSHCies proved just how clever they are when they put their brains together! From printed brain-teaser questions to online games like Guess the Flag, Wordle, and Connections, everyone enjoyed testing their knowledge and tackling challenges as a team.
